

# CLARIN

The logo features a network of dark blue circles and lines. A central horizontal line of five circles is connected by straight lines. Above this line, a larger circle on the right contains the letters 'NL' in white. This 'NL' circle is connected to the second circle from the left of the central line by a curved line. Another curved line connects the first circle of the central line to the 'NL' circle. A third curved line connects the 'NL' circle to the fourth circle of the central line. A fourth curved line connects the fifth circle of the central line to the 'NL' circle. There are also four short lines extending outwards from the 'NL' circle: one upwards, one to the right, one downwards, and one to the left.
